

# PVE 5 NL HAMMER

Mass: 10849 kg

all dimensions are in millimeters

## Technical specifications

- Cylinder assembly in a way that minimizes wear and tear on bearings
- High quality and easy to exchange drive cap assembly
- Shock-resistant electronic connectors & high quality electronic cable
- Accelerated mode to optimize efficiency
- Modular design which makes parts interchangeable
- Solid construction of leader guidance assembly
- High consistent blow rate at max. stroke

Max. potential energy	53,100 ft-lb
Max. net. energy	44,250 ft-lb
Maximum stroke	47 inch
Minimum stroke	4 inch
Blowrate at max. stroke	40 bl/min
Ram weight	5.5 ton
Ham. weight incl. drive cap	9.2 ton
Maximum pressure	2,400 psi
Required oilflow	103 gpm
Length indication	18.9 ft-inch
Max. width indication	37 inch
Max. height indication	37 inch
Recommended powerpack	250 NL
